The Innovation Connection
SMART MANUFACTURING

THURSDAY, OCTOBER 12, 2017
4PM – 6PM

Location TBD

PANEL DISCUSSION FOLLOWED BY SOCIAL NETWORKING
The definition: enterprises that create and use data and information throughout the product life cycle with the goal of creating flexible manufacturing processes that respond rapidly to changes in demand at low cost to the firm without damage to the environment. The concept necessitates a life-cycle view, where products are designed for efficient production and recyclability.

Food & beverages included.

The Innovation Connection’s mission is to foster innovation and opportunity creation by bringing together members of entrepreneurial, business and academic communities to collaborate.

Sponsored by
